

Environment and ecology are invaluable gifts of nature to man. Hence it is essential to create awareness among students and public on nature conservation. The club enlists student participation in maintaining a clean and healthy campus by planting more trees, holding seminars on topics related to current environmental problems and to conduct study tours to eco- tourism centres.

Activities

The major programmes included in this academic year are :

- Environmental awareness programme within the campus and in the locality.
 - Competitions like quiz, slogan writing, poster making as a part of 'soil conservation year 2015' were conducted.
 - Environment cleanliness programmes.
 - Nature camps.
-
